

(c) Remarks

The claims are 1-5 and 11-20 with claims 1-5 each being independent. New claims 11-20 have been added in order to provide applicants with more complete protection to certain embodiments. Support for these claims is found, *inter alia*, in Table 1, page 5 for Compound No.s 11 and 12 and in Table 5, page 19 for Compound No. 74. Claims 11-20 depend from one of claims 1-5 which are free from prior art. The former obviousness-type double patenting rejection of claims 1-5 has been met by an amendment to the claims of co-pending Application No. 10/525,622.

Wherefore the claims should be allowed and the case passed to issue.

Applicants' undersigned attorney may be reached in our New York Office by telephone at (212) 218-2100. All correspondence should continue to be directed to our address given below.

Respectfully submitted,

/Peter Saxon/
